

HSBC introduces new debit and credit cards for businesses

Businesses make up the backbone of Malta's economy. HSBC Malta recognises their contribution as drivers of the economy by offering them a new portfolio of business cards.

The new HSBC Business Debit and HSBC Business Credit cards offer businesses greater buying power that traditionally was not available to them, whilst also providing more opportunities to earn rewards. For instance, the HSBC Business Credit card allows the main account holder to allocate different credit limits to cardholders according to business requirements.

HSBC Head of Commercial Banking Michel Cordina said: "HSBC Business Debit and Credit cards resolve an important issue for businesses as sometimes they need immediate buying power to fund their growth. The cards are designed purposely to achieve not only that, but also to offer the countless possibilities of the HSBC capabilities such as worldwide acceptance, multi-trip travel insurance, and cash back on airfares."

"These new cards are ideal for many different levels of businesses from sole traders to small businesses to corporates," he added.

The cards are easy to use and an ideal way to keep track of day to day expenses such as travel, hotels and restaurants, building materials, office supplies and equipment.

The HSBC Business Debit and Business Credit cards replace the HSBC Debit and Credit Negozju cards.
