## HSBC Malta launches updated mobile app

HSBC Malta has launched a new version of its mobile banking app for both Android and iOS devices. This updated app features an improved search function which allows users to look up any transaction on their savings, current or credit card accounts from the last two years. This innovative search functionality also enables users to search for key words, such as a merchant name, amounts in Euro and dates. The app will display all transactions meeting the search criteria.

Crawford Prentice, Head of Wealth and Personal Banking at HSBC said, “HSBC Malta’s mobile banking app has proved popular with customers not only because of its functionality but also the security it offers, thanks to biometric logon and the use of the latest encryption technology. The app has now been updated to offer an even better customer experience which we are confident our customers will appreciate.”

In addition to the improved search functionality, the new HSBC mobile banking app features a number of other changes. These updates include an improved layout with account balances displayed more prominently and the use of green text to list the deposits, thus making it easier for customers to track movements in their accounts.

More information on HSBC’s mobile app, which is free to download from the App and Play stores, is available at <https://www.hsbc.com.mt/ways-to-bank/mobile/>
